MAY 2015

THE PRESIDENTS MESSAGE

Hi everyone....

At our last meeting in April, the weather again was warm, which allowed us to have our meeting outside. Another great turn out, thanks for attending.

Tulare.....we all made it to Tulare and home fine, with the exception of some flat tires and a broken wheel hub. Drive safe.

Our display looked great and we had a lot of compliments on the way we set things up. Lot of running engines and plenty of tractors showing, and a good participation in the tractor parade, even a tractor pull or two.

600 local children were bused in on Friday morning to tour the different club displays, and learn what engines & tractors were all about. Fun time for all....

I would like to thank the following members and guests for displaying and helping out: Ron Hanson, the Forbes Family – (Bill, Zackary, George, & Marylynn), Norris & Diane Engle, Kent Butler, Ron Zega, Tom Zega, Richard Pasquesi, Carl Ross & guests (Robert Simms & Irv Larson), Scott Wachlin, Phil Shiver, Garry Jolly and Lee & JR Garner out of Fresno. Also present at the show were Jess & Linda baker, Ben Drake, Jerry Wood and Tim Rice.

Thank you all, for attending and making this a fun event for all.....

As for the Antique Show this year, it was certainly different. It was spread out all over the place. Thanks for the trams to get us around. I also rented a golf Kart on Saturday, to be able to see everything, including the parade that was at a new location, the auction area at a new location and to see the many club displays that were spread out everywhere.

The weather was fine, but the attendance could have been better. A lot of complaints from the Vendors on the low attendance.

Congratulations to Branch 206 president Buster Brown, out of Yuma, on his election to the Board of Directors, for the National EDGE & TA.

This was voted on at the April, 55th National Show in Henderson, Texas.

Watch your calendar for upcoming events in May.....

You're Club President, Bob Hanson

Club President - A Special thanks goes out to Craig's Alternator & Magneto Repair Service out of Redding, Ca. During the Tulare show the magneto on my Fairbanks kept getting weaker, and to the point of not firing. Thanks to owner Craig Pember, who was at the Tulare Show, we were able to re-charge the magneto magnet at his booth, and get the Fairbanks Engine running again. If you have magneto problems, please do not hesitate to call Craig Pember at 530-246-2747. www.craigsmagneto.com

Memorial Day

The United States celebrates Memorial Day annually on the last Monday of May. Also known as Decoration Day, this holiday honors those who have died during military service for the United States. It is casually considered the start of summer.

Most celebrations take place at cemeteries, especially United States National cemeteries, which usually contain military personnel graves and sometimes their spouses. Well known National Cemeteries include the Arlington National Cemetery outside of Washington D.C., the Golden Gate National Cemetery in California and the Fort Snelling National Cemetery in Minnesota.

There are many traditions that Americans honor in commemoration of Memorial Day. They may fly the American flag, visit memorial cemeteries, and place flags in the graves of fallen soldiers. Also, many observers decorate the military graves to honor them. Despite this theme, many celebrations are joyous in nature, such as picnics, fireworks, concerts, gatherings and parties, memorials, and attendance of professional sport games. Many citizens retreat to vacation spots for the weekend or hold barbeques. Most schools and offices will shut down in commemoration.

See you at the next meeting
